Vehicle Tracking

It's accepted fact that there is always a need for a proper and efficient business plan for any particular element such as planning or controlling in a n

organization. Similarly, there is also a need for a business to clearly establish its logistics business plan. This can clearly point out the steps required and the personnel who will be performing the tasks and assigning responsibilities.

Logistics can be classified as a complete process of providing goods at the

looking to Dreams for Round the Clock Services, as Round as EYES & Tyre

right time, at the right place, for a right price and at the right condition. Logistics has evolved to unmatched heights because of advances in the field all over the globe. Many

organizations which are used to treat the process as a burden are now focusing on the growth and development of logistics by making it as an integral part of the organization.

C o r p o r a t e services are PEACE primary goal & its activities combine or consolidate with certain enterprises-wide needed support services, provide on specialized knowledge and technology to serve customers and business partners.

### Business Partner with CO-Branding

Peace establishes its operational services since 2008 from ISB, with targeting Medium Size organization, segmentation Public Private Sector.

With our Vision to get enrolment; PEACE succeed to establish the CO-Branding with
